One Thatch - Synthetic

One Thatch Palm in 'Weathered' is designed to reproduce the rugged charm of natural fan palm leaf thatching to the most delicate detail.

Weighing a fraction of traditional synthetic thatch products and designed with pre-bend folding lines, even novice DIYers will find the installation to be easy and effortless.

- 20 years manufacturer's warranty.
- Wind and weather resistant.
- 100% recyclable.
- Maintenance free.
- Fast, easy installation.

One Thatch is also available in a Fire Retardant Option with a class A fire-resistant classification tested and certified to ASTM E 108

01. Fire Retardant

Test: GB 8624 / ASTM E108

Certified by: SGS & INTERTEK

Result: ONETHATCH is tested and certified with class B1 fire-resistant (GB8624) and class A fire-resistant (ASTM E 108)

02. Weather Resistant

Test: ISO4892-3 (2000hrs)

Certified by: TÜV SÜD

Result: ONETHATCH is chemical and UV resistant, with excellent color-fastness.

03. Wind Resistant

Test: ASTM D3161

Certified by: TÜV SÜD

Result: ONETHATCH can withstand category 5 hurricane winds of up to 200km/h.

04. Mold Resistant

Test: ASTM G 21-96

Certified by: INTERTEK

Result: ONETHATCH shingle is highly mold, rot and insect resistant.

Viro Thatch - Synthetic

Viro Thatch Synthetic Bali tiles are an excellent long lasting alternative to both natural African & Bali Thatch.

Viro thatch is manufactured into a 780 x 600mm flexible tile, which can be clipped, stapled, or nailed onto existing structures for quick, no-fuss installation.

The Viro thatch sub-tiles are 780 x 600mm, for use over an existing roof structure such as colorbond to provide that great aesthetic look of thatch.

- 95% waterproof, and wind-resistant.
- Natural insulation offering maximum UV.
- No condensation – making it an ideal application for alfresco areas, and spas.
- Long lifespan and durability.
- 15 years manufacturer’s warranty

Recommended Thatch Spacing	300mm (Tile) 200mm (Sub-Tile)
Recommended Minimum Roof Pitch	30 degrees
Recommended Rafter Spacing	500 – 650mm

Viro Thatch – With Waterproof Membrane

Viro thatch tiles are now available with an interlocking waterproof membrane to ensure 100% waterproofing of your Bali hut.

They are suitable to be nailed onto timber batten, and do not include clips for galvanised rod installation.

- 100% waterproof, and wind-resistant.
- Natural insulation offering maximum UV.
- No condensation – making it an ideal application for alfresco areas, and spas.
- Long lifespan and durability.
- 15 years manufacturer’s warranty

Recommended Thatch Spacing	300mm (Tile)
Recommended Minimum Roof Pitch	30 degrees
