

## Shingle Tiles

### Overview

**Ironwood Shingles** are a traditional roofing material in Indonesia. This type of roofing first originated in Kalimantan, Borneo, where it has been used for hundreds of years for housing, due to its strength, aesthetic appeal and weather resistance. Ironwood Shingle dimensions are 570 x 75 mm.

**Western Red Cedar Shingles** are widely used in North America, and Europe. Cedar shingles are 450 mm in length and vary from 75 -200mm in width. Designed to withstand our extreme climate, all our shingles are 100% waterproof when installed correctly, with a life expectancy of over 20 years.

- 100% waterproof
- Require minimal maintenance
- Mould & mildew resistant
- Termite resistant
- Long lifespan

\$158.00 per SQM

## Tegola Master Asphalt Shingles

### Overview

Master shingles are the result of the latest research and development into A grade asphalt roofing materials, to guarantee durable high performance. Quality materials, combinations of overlapping layers and a choice of colour shades allow creating roofs with a natural look and perfect waterproofing.

The process of installing asphalt shingles, begins with plywood sheeting to cover the roof, followed by 'Feltbar' a one-way, breathable, membrane. The shingles are then fastened to the sheeting using flat-headed roofing nails.

Consider using **Tegola Master Shingles** to bring a stylish textured finish to existing structures, and will revitalise your outdoor area.

Recommended Min. Roof Pitch **10 degrees**
