Bali (Alang Alang) Thatch

Bali Thatch, also called Alang Alang Thatching Grass, is grown on the Islands of Bali and Lombok.

Our A Grade, Natural String thatching comes in 2.5m Lengths.

The thatching grass is woven around a bamboo batten, meaning it can easily be stapled or nailed onto existing or customised structures.

- 100 % waterproof with correct spacing and installation.
- Natural insulation offering maximum UV protection.
- Up to 10 degrees cooler than a metal roof in summer.
- No condensation – making it an ideal application for alfresco areas, and spas. Long lifespan and durability.

| | |
|--------------------------------|--------------|
| Recommended Thatch Spacing | 75mm or 65mm |
| Recommended Minimum Roof Pitch | 30 degrees |
| Recommended Rafter Spacing | 500 – 650mm |

African (Cape Reed) Thatch

Cape Reed, indigenous to South Africa, is a renewable resource where harvesting promotes growth.

This African Cape Reed is manufactured into 800 x 450 mm flexible tiles which can be clipped, stapled, or nailed onto existing structures for quick, no-fuss installation.

- 99.8 % waterproof, and wind-resistant
- Natural insulation offering maximum UV protection.
- Up to 10 degrees cooler than a metal roof in summer.
- No condensation – making it an ideal application for alfresco areas, and spas.
- Long lifespan and durability.
